AFURI Menu – Allergen Guide

- This chart provides allergen information based on the 8 ingredients required to be labeled by the Food Sanitation Law and 20 additional recommended ingredients.
 The information is based on theoretical analysis of raw materials. As all items are prepared in the same kitchen using shared equipment, there is a possibility of trace cross-contact with other ingredients.
- Please note that the dried sardines we use may be caught using methods that also catch shrimp and crab.
- Individual sensitivity to allergens may vary, and we cannot guarantee that allergic reactions will not occur.
- Please use this chart as a reference when selecting your meal. If you have concerns, we recommend consulting a medical professional or refraining from consuming our products.
